B A R G A I N O F T H E M O N T H

February-March, 1953

It has been three months since my "BARGAIN OF THE MONTH" featured Community Pot Lots of Bare Root seedlings out of flasks. Now, those of you who were tardy in ordering before have another chance. Later flaskings of some of the same crosses have reached the community pot state. Other crosses are offered here for the first time.

Is this the first time you've thought of ordering Bare Root seedlings ready for community pots? Then I suggest you read pages D, D-1 and T, "LET'S TALK ABOUT BARE ROOT SEEDLINGS." Planting and growing them in the Potting Mixture I provide is much easier than you imagine!

Your Choice of any single Community Pot Lot (20 or more seedlings of the cross you choose).....\$6.00

Two or more Community Pot Lots (20 or more seedlings of each cross you choose).....\$5.00 per lot

THEY FLY TO YOU VIA AIR MAIL PREPAID!

- #70-R C. ELEANORE ALBA X C. NUTLEY ALBA - Extra fine White-Colored-Lip hybrids expected to bloom twice yearly, as one parent is Spring; the other Fall.
- #71-R LC ISHTAR X LC VALLANDINA X BLC DAWN ANGELA - Brilliant, dark blooms of the valued round shape and heavy textures. Winter season.
- #72-R LC MEMORIA REMY CHOLET X LC PRINCESS MARGARET - This pod parent (not to be confused with C. Remy Cholet) is across of Lc Marie-Louise and C. Peetersii. It was large and dark, reddish lavender, with glowing crimson-purple lip, like that on Lc Princess Margaret. Should bloom twice yearly, Spring and Fall.
- #73-R BLC DAWN ANGELA X LC GOVERNOR GORE - Both of these parents are TOPS when it comes to consistent production of SHOW winning flowers. The bold form, brilliant coloring, size and texture have seldom been excelled. Winter.
- #74-R C. TITRIANAE X LC DERRYNANE - The Titrianae is the best I've ever seen - so good, in fact, that a piece of the plant brought \$100 from a man who is so particular about his collection that you couldn't give him a plant if it lacks the quality he insists upon. Petal tips matched the brilliance of the lip. Derrynane already described many times in my lists. Late Fall.
- #75-R C. EMILY SHILL X C. LADY VEITCH X C. BOWBELLS VAR. ELZADA - This particular Bow Bells won "Best White in the Show" at last year's International Orchid Show in Miami, and also was awarded an A.M. by the American Orchid Society. Naturally, pollen from so fine a flower was used on the best White available, which was this unnamed hybrid. Season is variable but predominately Late Winter - Spring.
- #705 LC RUBENS X RADIANS X LC ILLIONE - All the first flasking of this quality RED cross sold promptly. Now the second flasking is ready to go.
- #708 LC PLYMOUTH X C. EDMOND DEMUNTER - Clear butter YELLOW Cross; Purple lips.
- #720 LC DERRYNANE X BLC MARION RYERSON - Fine, dark Blc; brilliant, velvety lip.

DANIEL RYERSON, Box 805, HOMESTEAD, FLA.
